2020 Tokyo Olympics
Nomination Criteria - Shooting

RE: MQS's Scores

Dear Athletes,

NZSF/ NZOC are in the process of finalising the Nomination Criteria for the 2020 Tokyo Olympics and there are a few important points we would like you to be aware of!

As there have been new formats introduced into the Women's shooting events since January 2018. NZSF would like to inform all athletes endeavouring to qualify for Tokyo, that due to difficulty in obtaining comparative scores to set a fair MQS: Qualifying MQS's will be confirmed at the conclusion of 2018 ISSF World Championships.

For the comparison: the 2018 ISSF World Cups and 2018 ISSF World Championships will be taken into consideration!

At this stage there is an intention that the scores achieved at the 2018 ISSF World Championships will likely be used for Tokyo 2020 MQS's purposes. Accordingly, we strongly recommend that you keep training and ensure you achieve to the highest level.

NZSF will update athletes as soon as we have agreement with NZOC.

Gavin Paton
